

## What is SWAPP?

### Background

The Solid Waste Management Association of the Philippines (SWAPP), Inc. is a non-stock, non-profit association with members from national government agencies, local government units (LGUs), institutional organizations, professionals, academe, students and solid waste management (SWM) practitioners who are committed to the proper management of solid waste for a sustainable environment. SWAPP was established in May 2000.

Over the past 23 years, the association has operated as a small non-government organization registered with SEC and BIR. The association aims to build the capacity of its members to manage solid waste in their respective areas. SWAPP provides training, technical assistance, research, information exchange, and network building. It provides technical/vocational courses on SWM accredited by the Technical and Educational Skills Development Authority (TESDA).

### Objectives

- Enhance the knowledge and skills of SWM practitioners to plan and implement integrated SWM programs and projects;
- Promote information exchange and develop linkages and partnerships among SWM practitioners;
- Advocate for policy reforms to strengthen LGU capacity to implement SWM programs and projects;
- Disseminate information on various technologies without endorsing any specific technology; and
- Develop a research agenda on SWM as a basis for conducting specific research studies.

## Board of Trustees

(Year 2021-2023)

<b>Dr. Marlon De Luna Era</b> – President
<b>Atty. Dwight Ramos</b> – Executive Vice-President
<b>EnP Lilia Casanova</b> – VP for NCR
